NEW BUSINESS:

MATTER RE: Winter Farmer’s Market Schedule - The Public Works Committee discussed a revised schedule for the Winter Farmer’s Market project. The initial or current phase includes renovating the shell of the existing block barn. These improvements will not make the building habitable. Phase 2 of the project was to include the site work for the Winter Farmer’s Market. However, our conversation with the MCDOT resulted in a revised access location and parking layout for the project. These revisions will be presented to the public for review and comment before proceeding to final design. Therefore, we are proposing that Phase 2 be revised to include the remaining interior improvements to the existing barn which will create a habitable building. The Public Works Committee discussed potential uses for this building but additional discussion is warranted. The final phases of the project will include the construction of an annex building and a second building as depicted on the concept plan.

MATTER RE: Operation Center Work Hours - The operation center staff will begin four 10 hour work days on May 13, 2019. The work hours will be 6:30 am to 4:30 pm.

MATTER RE: Chip Seal Schedule - The chip seal program will begin on May 13, 2019 and will likely require 2 weeks to complete weather permitting. The list of roads to be chip sealed are shown on the Town of Brighton web site at https://www.townofbrighton.org/865/Public-Works-Maps

MATTER RE: Havens Road One Way Traffic - Havens Road is scheduled to be reconstructed this year. This project will likely require that the roadway be treated temporarily as one-way during its reconstruction. The roadway will likely be one way in an east to west direction into the residential area.

UPDATES:

MATTER RE: Highland Crossing Trail - The trail is completed on Sawgrass
Dr., South Avenue and the contractor is currently constructing the trail on Elmwood Ave. Weather permitting, the Elmwood Avenue portion of the trail should be completed this week. The trail will be completed in 2019.

MATTER RE: Renovation, Repair and Painting, (RRP) Certification - The Town of Brighton building permit has been revised require that the contractor is certified to work with lead paint. A third sheet has been added to the application and includes questions regarding the project and the need for lead certification. Town staff has been providing educational material to the residents. Staff is also working with residents that were unaware of this Federal regulation.

MATTER RE: Traffic Boxes / Garden Planting in East Brighton - Several residents have expressed interest in painting a traffic box at the intersection of Blossom and Clover Roads. However, the NYSDOT has not allowed their traffic boxes to be painted in the past. The Town will reach out to the NYSDOT and request permission to paint the traffic box.

MEETING ADJOURNED:

NEXT COMMITTEE MEETING: June 4, 2019 at 9:00 A.M
