

MS4 Municipal Compliance Certification(MCC) Form

MCC form for period ending March 9,

2	0	2	1
---	---	---	---

Name of MS4

Stormwater Coalition of Monroe County/Town of Brighton
--

SPDES ID

N	Y	R	2	0	A	1	6	4
---	---	---	---	---	---	---	---	---

Each MS4 must submit an MCC form.

Section 1 - MCC Identification Page

Indicate whether this MCC form is being submitted to certify endorsement or acceptance of:

- An Annual Report for a single MS4
- A Single Entity (Per Part II.E of GP-0-10-002)
- A Joint Report

Joint reports may be submitted by permittees with legally binding agreements.

If Joint Report, enter coalition name:

S	t	o	r	m	w	a	t	e	r		C	o	a	l	i	t	i	o	n		o	f		M	o	n	r	o	e
C	o	u	n	t	y

Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for *each* of the following positions as indicated below:

1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- Principal Executive Officer/Chief Elected Official
- Duly Authorized Representative
- Local Stormwater Public Contact
- Stormwater Management Program (SWMP) Coordinator
- Report Preparer

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Reduce stormwater pollution by educating the public on actions they can take to protect local water quality. The Stormwater Coalition's public education program includes the H2O Hero mass media campaign (TV, radio, print, billboard, and Facebook advertisements), social media, website, and direct engagement such as classroom and community presentations using a watershed model.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

In 2020, the Stormwater Coalition contracted with the Rochester Museum & Science Center (RMSC) to conduct stormwater public education including school and community presentations, and storm drain marking. The Coalition contracted with Causewave to implement the H2O Hero campaign. In 2020, the campaign included a \$44,000 media buy (static and video Facebook Ads, billboards,) several new static and video digital Ads were developed for use on Facebook. The H2O Hero website received 11,000 visitors during this period and a project is underway to update the site. The Facebook page currently has 1200 followers. The Instagram platforms is also utilized. Coalition supported exhibits are still in place at the RMSC, Seneca Park Zoo, and Ontario Beach Robach Center. In general education activities were curtailed during this reporting period due to the Covid-19 pandemic. Historically, the Town's Rain Barrel event workshop has also been a popular educational events for residents, averaging about 15 attendees per year. Unfortunately, due to COVID related public gathering restrictions in 2020, the rain barrel event was canceled. Additionally, many municipal operations were shut down and severely impacted during the pandemic shut down.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Coalition will continue to support the H2O Hero campaign. A significant media buy including both digital and billboards is planned for the summer of 2021. Additional media space will be donated by Causewave and is likely to include print, and online. The campaign survey analysis report will be discussed and changes in messaging or tactics will be identified. The website enhancement project will be completed. The social media effort will continue with an emphasis on increasing reach and user engagement. The Coalition will continue to partner with the Rochester Museum & Science Center on the direct engagement portion of the public education program including presentations at schools and community events using the watershed model. Opportunities will be explored to place new H2O Hero educational signage at high traffic locations such as, Frontier Field, and the airport. The Town will continue to support the H2O Hero by advertising him and his team in our quarterly mailings.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Promote public participation in and support for the Stormwater Coalition's efforts to reduce stormwater pollution including storm drain marking, and watershed clean ups. Additionally, the Town continues to promote other events which are not directly related but can have a positive impact in reducing stormwater pollution such as: Brighton Clean Sweep, Electronic Recycling events, document shredding events, and the Brighton pharmaceutical take back events. Finally, the Brighton

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

During this reporting period, public participation events were greatly limited due to the Covid-19 pandemic. Unfortunately, the majority of the measurable goals under this MCM generally involve in person gatherings with the public. Due to executive orders and mandates from Governor Cuomo, most municipal staff and partner organizations were greatly limited in the frequency and type of public contacts that was allowed throughout the reporting period. We are hoping to resume some of the public involvement/participation activities for the 2021 reporting period.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Stormwater Coalition will continue to promote storm drain marking, and watershed clean ups. During 2020, several new Facebook static and video Ads were developed to promote storm drain marking, litter clean ups, and riparian planting. These new Ads will be run during 2021 to increase public participation and should greatly increase awareness of the Coalition's volunteer opportunities. The Coalition continues to cultivate existing and new partnerships to advance its public participation program and it is anticipated that the next reporting period will reflect normal activities with the public. As indicated in the 2019 Annual Report, it was anticipated that many activities which were planned to help meet the goals of this MCM in 2020 would be delayed or re-scheduled due to the COVID-19 pandemic. For 2021, Brighton hopes to resume some of the activities and events that generally aid with this MCM. Already, we have resumed the semi-annual e-waste recycling event (5/16/2021).

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Identify and eliminate illicit discharges to the stormwater system. Provide staff training and technical assistance with outfall inspections, track down, mapping, and source control. Target IDDE education efforts at high risk businesses and the public.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

During this reporting period, the County/Coalition assisted the member MS4s with one IDDE training session. The Coalition also assisted members with system mapping to include accurate storm sewer information and outfall data. The County/Coalition also assisted with monitoring 5 local streams for pollutants. Monroe County, in partnership with the US Geological Survey (USGS), monitors Irondequoit, Northrup, Black, Oatka, and Honeoye creeks for pollutants for total phosphorous and nitrogen, nitrate and nitrite, ortho phosphorous, chloride, ammonia and total suspended solids. This program documents the impact of stormwater runoff on local waterways. A GIS Dashboard was developed to assist members with outfall inspection tracking, which the Town anticipates on resuming in full force in the summer of 2021. Additionally, as noted historically, Town wide flow monitoring to identify I/I sources continues along with the sewer re-lining program. The Town has upgraded to wireless flow meters, which provide real time feedback for concerned areas and can be monitored from a desktop. The wireless meters from Telog are currently used for studying, modeling, and evaluating Infiltration and Inflow impacts on the Town's sanitary sewer system.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Coalition will continue to assist the MS4s with outfall inspections and developing system mapping. Monroe County has a contract to conduct GIS system mapping and development of a comprehensive county outfall map. ESRI Survey 123 has been used to conduct inspections and collect digital data. Outfall inspection/IDDE trainings are being planned to educate DPW workers on how to accurately inspect an outfall and how to follow up if issues are identified. Brighton engineering and GIS staff actively participates in both the IDDE task group and the Construction task group, which is involved in developing and providing feedback on the ESRI Survey 123 mapping applications.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Minimize instances of sediment leaving construction sites to the maximum extent practicable. Provide annual erosion and sediment control training and technical assistance to municipal staff, contractors, developers, and consulting engineers. Municipality will inspect active construction sites, and the MS4 will respond to problems in a timely manner.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Stormwater Coalition of Monroe County contracts with the Monroe County Soil & Water Conservation District (SWCD) to provide construction technical assistance to the member MS4s. During this reporting period, the SWCD responded to 111 requests including construction site inspections, staff training, and permit assistance. SWCD provided 3 training sessions with 146 attendees at the 4-hour sediment and erosion training classes. SWCD also provided the Stormwater Management Training Series in which 23 municipal staff attended all classes. The Training Series classes are full day with each class covering a different technical topic. Due to executive orders and mandates, construction projects were shut down for a few months during this reporting period. When construction resumed, social distance requirements and protection equipment requirements sometimes reduced the frequency of inspections and interactions on construction sites. Normal construction activity should resume in 2021.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

During the next reporting cycle the Stormwater Coalition will continue to partner with the Soil & Water Conservation District to provide technical assistance and reduce stormwater pollution associated with construction activity. Education and technical support activities are expected to resume to normal levels during the next reporting period. Additionally, the Town is exploring options for converting our current site inspection forms to a more robust, GIS based inspection system. Much progress is anticipated in this development as the Town has now hired a dedicated

Yes No

4b. Does the MS4 have a banking and credit system for stormwater management practices?

Yes No

4c. Do the SWMP Plans for each MS4 contributing to this report include a protocol for evaluation and approval of banking and credit of alternative siting of a stormwater management practice?

Yes No

4d. How many stormwater management practices have been implemented as part of this system in this reporting period?

--	--	--

5. What percent of municipal officials/MS4 staff responsible for program implementation attended training on Low Impace Development (LID), Better Site Design (BSD) and other Green Infrastructure principles in this reporting period?

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Minimize stormwater pollution through the use of effective post construction stormwater management practices. Provide annual training for municipal staff and the development community on stormwater management, green infrastructure, inspections, and maintenance. Inspect stormwater management practices at least once every three years and perform maintenance as needed. The SMP inspection dashboard was completed and training provided

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Stormwater Coalition contracts with the Monroe County Soil & Water Conservation District (SWCD) to provide construction technical assistance to the MS4 members. Technical assistance includes SWPPP reviews and training on green infrastructure and inspecting stormwater management practices (SMPs). During this reporting period, the SWCD responded to 111 requests for technical assistance. 146 municipal staff, engineers, and construction site operators attended the Stormwater Management Training Series. The Coalition conducted pond inspections on behalf of the MS4s. The Coalition's Construction Task Group developed new SMP inspection forms using Arc GIS Survey123 application. The pond and bioretention forms are ready for use in the field using a mobile device. The Survey123 forms for other SMPs have been developed also. Significant progress was made during this reporting period on the development of this tool. Municipal activities however were generally limited due to the Covid-19 pandemic.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Stormwater Coalition will continue to partner with the SWCD to provide construction technical assistance. The Coalition's Construction Task Group will advance key projects including the continued testing and use of GIS apps to inspect post construction SMPs. The Coalition-wide GIS of SMPs is completed and additional training and inspection/maintenance support will be provided.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

	2	6
--	---	---

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

<u>Operation/Activity/Facility</u>	<u>Addressed in SWMP?</u>		<u>Self-Assessment Operation/Activity/Facility performed within the past 3 years?</u>

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

Reduce stormwater pollution associated with municipal facilities and operations to the maximum extent possible. Train staff on stormwater pollution prevention. Provide assistance to residents on proper disposal of hazardous materials.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Monroe County Ecopark is open twice weekly for residents to bring household hazardous waste, electronics, and recyclables. In 2020, the Ecopark was used by 45,000 residents. 317 tons of household hazardous waste was collected and diverted as well as over 6,800 lbs of pharmaceutical waste. Monroe County created a new ecopark promotional video that includes the "only rain down the drain" stormwater messaging. Pet waste messaging was also an important part of the 2020 education program. As indicated under MCM 2, it was anticipated that many activities which were planned to help meet the goals of this MCM would be delayed or re-scheduled. For the 2021 reporting period, Brighton hopes to resume some of the activities and events that generally aid with this MCM. Already, we have resumed the semi-annual e-waste recycling event (5/16/2021).

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

During the next reporting cycle, the Stormwater Coalition will continue to utilize the IDDE/P2 Task Group to address areas of concern that were identified by the IDDE/P2 Survey and to work on projects addressing these needs. Pollution prevention assessments and trainings will be conducted. Pet waste stations will be provided to members that request them. Staff training will resume as restrictions due to Covid are relaxed.
